

## Relax more with automated tax rates and returns.

Maintaining sales and use tax rates across the more than 12,500 taxing regions in the United States and Canada is tedious, complex and by nature non-revenue generating. **SalestaxPC** and **SalestaxII** provide your company with the most accurate rate tables—automatically uploaded and updated within your accounting application. Combined with **LaserBridge+** sales and use tax forms and **TrustFile** e-filing and e-payment solutions, you can close the loop on the entire returns and remittance process.

## Independent Systems™ an Avalara Company

### Avalara® and Independent Systems. Making sales and use tax less taxing together.

Now Independent Systems solutions are available from Avalara. Together, Avalara and Independent Systems offer end-to-end sales tax management services eliminating the tedious work and complexity associated with calculating, collecting, reporting and remitting sales tax.

### Want to automate your entire sales and use tax compliance? Ask about AvaTax.

From calculation to remittance, Avalara's AvaTax is the leading Web hosted sales tax management service. By integrating AvaTax into your Infor accounting, e-commerce, point-of-sale or other applications, you can reduce your exposure to suffering penalties in an audit, while saving time and money. Call (877) 780-4848, option 1 to learn more about AvaTax.

## Accurate Sales and Use Tax Rates for Any North American Taxing Jurisdiction

Maintaining sales and use tax rates and jurisdiction boundary data from more than 9,000 taxing authorities covering 45,000 cities across the country can be a tedious, time consuming and costly task if done manually. However, not doing it correctly could expose your business to risk during an audit. [SalestaxPC](#) and [SalestaxII](#) include a comprehensive and detailed database of sales and use tax rates and boundaries for all 50 states, U.S. territories and possession, and Canada.

Eliminating the need to research and manually update rates and boundary data, These comprehensive solutions automatically update the rate tables for over 60,000 taxing jurisdictions within your Infor accounting package using the existing Infor database and without any disruption to your workflow. [SalestaxPC](#) and [SalestaxII](#) include current and previous rate tables for state, county, city, and special taxing jurisdictions. With over 50,000 sales tax area codes, You'll have access to the proper jurisdictions for detailed reporting down to the jurisdiction level.

## Sales and Use Tax Filing Software for Efficient Reporting and Remittance

Increased efficiency and productivity is important to growing and managing a business. The processes of reporting and remitting sales and use tax provide no value to your business—by nature they are non-revenue generating. Therefore any time spent on sales tax compliance efforts is time taken away from the productivity of your business. [Laserbridge+](#) helps businesses streamline their compliance process, reducing the time it takes to fill out and remit sales and use tax forms to taxing authorities.

Using [LaserBridge+](#), you can automatically populate each paper tax return for efficient reporting to the required taxing authorities. With a catalogue of state-approved forms, you can select to generate a return in a pdf format via Adobe Acrobat™, or chose to print on forms supplied by the state, county or city. With quarterly forms updates and semi-annual audits, rest assured the forms you are using are the most up-to-date available.

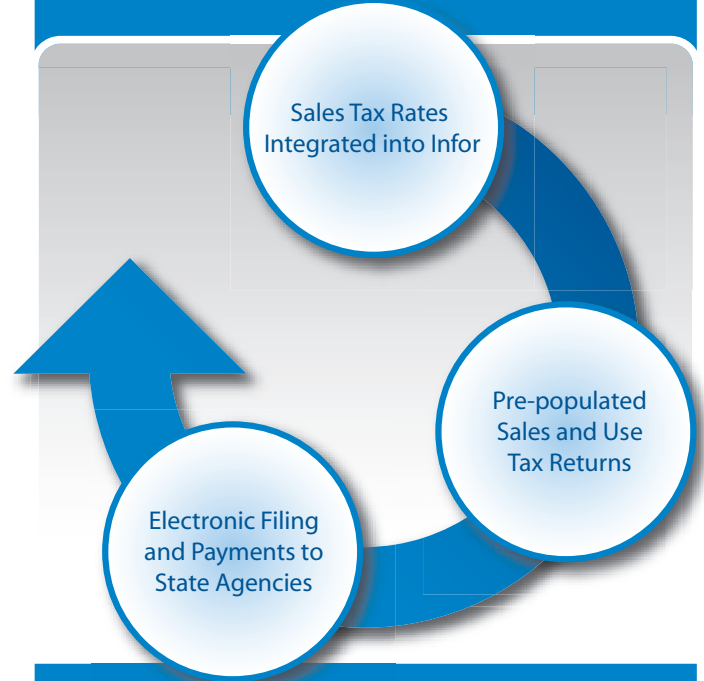

## File and Pay Electronically—an Easy E-Tax Experience

A complementary solution to [LaserBridge+](#), [TrustFile](#) provides a reliable alternative to state tax filing Web sites. Offering electronic business filing solutions in the states of Tennessee, Florida, South Carolina, New Jersey, Pennsylvania, Connecticut, Illinois, Louisiana, Maryland and Wisconsin; [TrustFile](#) offers a simple, inexpensive solution that automates sales and use tax e-filing and e-payment.

With [TrustFile](#), you can easily import tax data from your accounting package or [LaserBridge+](#), transmit returns quickly and easily via the internet, and securely remit payments to the appropriate states—all per state e-file specifications. Useful for individual businesses, or professional tax preparers, [TrustFile](#) offers you the ability to simplify your sales and use tax filing process.

## Closed Loop Sales Tax Calculation and Compliance

Rates and returns are the foundational elements of the sales tax compliance process. [SalestaxPC](#) and [SalestaxII](#) eliminate the maintenance of sales tax rates. [LaserBridge+](#) enables you to easily print, sign and remit your paper returns. And [TrustFile](#) provides you the e-filing and e-payment options you want.

### CALCULATION

#### Sales Tax Rates Integrated into Infor

- All 50 states, U.S. Territories and Possessions, and Canada
- Automatic updates for tax jurisdiction and rates data
- Current and previous state, county, city, and special taxing jurisdictions

### COMPLIANCE

#### Pre-Populated Sales and Use Tax Returns

- Returns automatically pre-populated
- Print from catalogue of state-approved forms or print on forms supplied by taxing authorities
- For every required return, you may import:
  - Gross Sales Dollars
  - Taxable Sales Dollars
  - Non-taxable Sales Dollars
  - Transit Tax Dollars
  - School District Dollars
  - And much more!

#### Electronic Filing and Payments to State Agencies

- Transmit returns via the internet
- Remit payments via TrustFile secure payment services
- Reports and payments per state e-file specifications
